

SHUAA paves way for launch of next-generation Digital Wealth platform; appoints Hadi Raad as Chief Digital Officer

- *With technology a key focus for SHUAA's continued growth, the company plans to double down on developing its digital offerings, including the launch of a digital wealth fintech*
- *The new digital wealth platform will elevate the traditional wealth management and advisory experience to a whole new level, integrating new technologies such as AI with curated management and advisory services for a seamless and holistic experience*
- *The Digital Wealth Platform will open up SHUAA's market-leading proposition to a broader investor base, including the next generation of investors*
- *Hadi Raad, who brings a wealth of digital and Fintech experience from his time at Visa and Google, will lead SHUAA's innovative and ambitious digital proposition as Chief Digital Officer*

United Arab Emirates, 14 June 2021: SHUAA Capital psc (DFM: SHUAA), the leading asset management and investment banking platform in the region, today announced its intention to launch a new Digital Wealth Platform to serve existing clients as well as the next generation of investors. To steer the company's innovative and ambitious digital proposition, which will operate as an independent fintech platform, SHUAA has appointed ex-Visa and Google alumnus, Hadi Raad, in the newly created role of Chief Digital Officer.

SHUAA's new fintech is being created with the aim of providing investors with a seamless and holistic digital wealth management experience that leverages new technologies such as Artificial Intelligence (AI) and Machine Learning to elevate the traditional personal curated management and advisory experience to a whole new level. The new Fintech will build its own product capabilities while drawing on SHUAA's asset management and investment proposition to set a new standard for user experience, advisory execution and portfolio allocation.

According to a recent study by Knight Frank, the number of HNWI (high net-worth individuals) in the Middle East is expected to increase by an average of 12 percent by 2025 and that of UHNWIs (ultra-high-net-worth individuals) by over 26 percent during the same period, with 57 percent of these UHNWIs residing in Saudi Arabia and 23 percent in the UAE. The millennial and HNWI and Affluent investors are significantly underserved. Against this backdrop, SHUAA has identified a significant market opportunity to create a cutting-edge hybrid digital wealth platform that provides personalized curated management and advice.

Hadi joins SHUAA from Visa, where he served as Vice President & Regional Head of Digital Solutions for the Central Europe Middle East and Africa region, driving e-commerce products, contactless, mobile payments, digital wallets, and developer platform, among others. Prior to that, Hadi was Head of Products Marketing for Google's Emerging Arabia, and worked on market development of Google consumer products such as YouTube, Android, Maps, Navigation and Chrome.

In his role as SHUAA's Chief Digital Officer, Hadi will be responsible for building and leading this dynamic new fintech, driving product innovation and development, digital user experience design, fintech partnerships and digital wealth management platform. Hadi will report directly to Jassim Alseddiqi, Group CEO of SHUAA.

Commenting on Hadi's appointment and SHUAA's digital plans, **Jassim Alseddiqi, Group Chief Executive Officer of SHUAA**, said, "Our intention to launch a new digital wealth platform is in line with our increasing focus on technology, which, as we have previously indicated, will be one of SHUAA's top priorities going forward. This includes transforming our asset and wealth management capabilities and client experience in ways we have never done before. At the same time, we have identified a gap in the market for an innovative digital wealth offering that integrates best-in-class advisory services, execution and cutting-edge technology.

"We are delighted to bring Hadi on board to drive this exciting digital wealth proposition, with his in-depth experience of developing innovative solutions that have been instrumental in empowering digital ecosystems. Together, I am confident that SHUAA can address this significant opportunity and create an unparalleled digital wealth platform."

Commenting on his appointment, Hadi Raad said, "I am delighted to join one of the most credible names in the investment banking and asset management industry. I look forward to my role in building a digitally-led proposition that not only adds value to SHUAA's existing client base but also expands access to new client segments significantly. My goal is to develop a best-in-class digital-first offering, expanding SHUAA's digital capabilities and making diverse global and regional investment product portfolios accessible to as many investors as possible in the region and beyond."

Hadi holds both a Bachelor's degree in engineering in computers and communications and a Master's degree in Engineering Management from the American University of Beirut. He also holds an MBA with high honors from the University of Chicago, Booth School of Business.

Cautionary Statement Regarding Forward-Looking Information:

This document contains forward-looking statements. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Forward-looking statements can be identified by words such as: "anticipate," "aspire," "intend," "plan," "goal," "objective," "seek," "believe," "project," "estimate," "expect," "forecast," "strategy," "target," "trend," "future," "likely," "may," "should," "will" and similar references to future periods.

Examples of forward-looking statements include, among others, statements we make regarding:

- *Expected operating results, such as revenue growth and earnings.*
- *Anticipated levels of expenditures and uses of capital*
- *Current or future volatility in the capital and credit markets and future market conditions.*

Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: Our ability to maintain adequate revenue levels and cost control; economic and financial conditions in the global markets and regional markets in which we operate, including volatility in interest rates, commodity and equity prices and the value of assets; the implementation of our strategic initiatives, including our ability to effectively manage the redeployment of our balance sheet and the expansion of our strategic businesses; the reliability of our risk management policies, procedures and methods; continued volatility in the capital or credit markets; geopolitical events; developments and changes in laws and regulations, including increased regulation of the financial services industry through legislative action and revised rules and standards applied by our regulators.

Any forward-looking statement made by us in this document and presentation is based only on information currently available to us and speaks only as of the date on which it is made. No representation or warranty, express or implied, is made as to the accuracy, completeness or fairness of the information and opinions contained in this document. We undertake no obligation to publicly update any forward-looking statement whether as a result of new information, future developments or otherwise.

Please remember that past performance may not be indicative of future results.
